

Chunghwa Telecom hiHosting Service Termination Plan

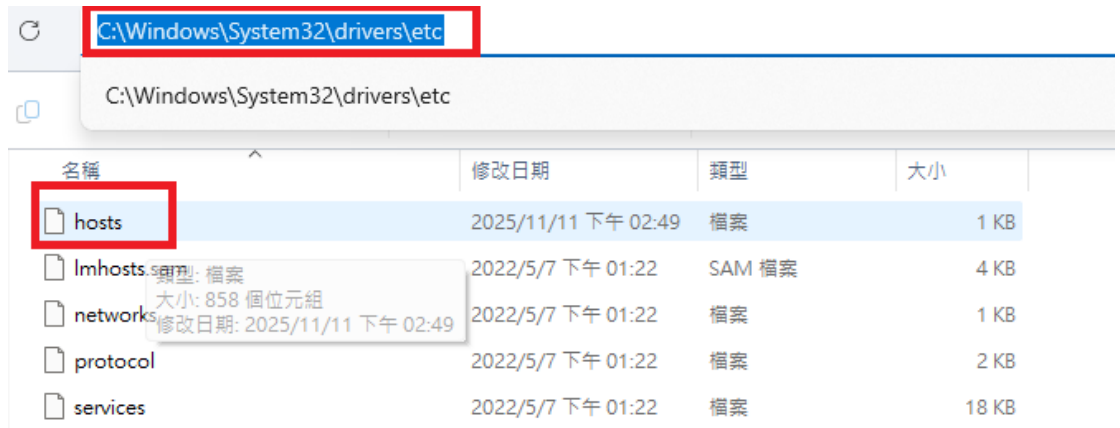

Temporary Platform Functionality Test and DNS Switching Instruction

(1) In response to the hiHosting service termination plan, for Linux platform users, we have collected your latest website data and transferred it to a temporary platform. Please test the temporary platform and perform DNS switching before 2024/12/31 to facilitate subsequent operations.

Thank you!

(2) Temporary Platform Functionality Test

- A. With 'System Administrator' privileges, modify the 'C:\Windows\System32\drivers\etc\hosts' file on your current PC.

B. Set up a column:

First, enter: the new IP address we have assigned you (see the **notification email** or contact our customer service team for details, such as 210.61.14.125, 210.61.14.142, 210.65.138.37, 210.65.138.60, 210.65.138.80)

Next, leave a blank

Then enter: 'Your Website FQDN' (Your website address, (in this example, www.hihosting.tw))

# This is a sample HOSTS file used by Microsoft TCP/IP for Windows.
#
# This file contains the mappings of IP addresses to host names. Each
# entry should be kept on an individual line. The IP address should
# be placed in the first column followed by the corresponding host name.
# The IP address and the host name should be separated by at least one
# space.
#
# Additionally, comments (such as these) may be inserted on individual
# lines or following the machine name denoted by a '#' symbol.
#
# For example:
#
#       102.54.94.97       rhino.acme.com       # source server
#       38.25.63.10       x.acme.com           # x client host

# localhost name resolution is handled within DNS itself.
#       127.0.0.1         localhost
#       ::1               localhost
# 新站台IP  您的網址FQDN

(3) DNS Record Switching Tutorial :

This tutorial applies to domain hosting hosted on HiNet. For hosting with other vendors, the interface may differ, but the DNS A record can be modified in

the same way.

A. Log in to your domain management interface

The screenshot shows the login page for Chunghwa Telecom's Pro DNS service. At the top, the Chunghwa Telecom logo and 'Pro DNS' text are displayed. Below this are three input fields: the first contains the account number '89880042', the second contains a masked password '.....' with a toggle icon, and the third contains the domain 'xwdF3'. Below the domain field is a CAPTCHA image showing 'xwdF3' and a '更新驗證碼' (Refresh CAPTCHA) button. A note below the CAPTCHA states '區分大小寫 (Case Sensitive)'. A large orange '登入' (Login) button is centered below the inputs. At the bottom, a red banner reads '歡迎使用 中華電信 HiNet Pro DNS 域名代管 服務'. A footer contains links: '關於我們 | 著作權保護 | 隱私權說明 | 企業社會責任 | 兒童網路安全 | 刊登廣告 | 人才招聘 | 檢舉濫用 | WHOIS | 聯絡我們'. A decorative rainbow bar is at the very bottom.
